SERVICE	Implementation
IMPLEMENTATION	Mental health refers to our emotional, psychological, and social wellbeing. It affects how we think,
	feel, and act, how we handle stress, relate to others, and make choices.
	In a workplace context, mental health and wellbeing encompass a person's ability to cope with the
	normal stresses of work, be productive, contribute positively to the team, and feel valued and
	supported.
	Wellbeing includes mental, physical, and emotional health, and is influenced by the quality of
	relationships, work-life balance, job satisfaction, and the level of support provided.
	Promoting mental health and wellbeing in early childhood settings ensures educators can perform at
	their best, build meaningful relationships, and provide quality care and education to children.
	We recognise that we are all responsible for managing our own mental health and wellbeing, as far
	as reasonably practical and therefore will work together to identify and manage potential risks to
	mental health in the workplace.
	Supporting mental health at work
	Mental health conditions influence not only how someone feels, but also how they think, behave and
	interact with others. Mental health conditions can be short term, long term or episodic. You may not
	always know if someone around you has a mental health condition. We are all responsible for
	creating a healthy workplace culture for mental health and wellbeing. This includes always treating
	each other with respect and courtesy.
	Working in early childhood education and care requires sustained physical, emotional, and cognitive
	effort. Our approved provider recognises that workplace mental health and employee wellbeing is
	essential to both individual and the service team success.
	We are committed to creating a workplace culture where all employees feel mentally healthy,
	supported, and valued.
	We will maintain a workplace that is:
	Safe and inclusive, welcoming diversity and respecting all individuals.
